I hope no one is dumb enough to take this cartoon seriously. This would almost certainly cause an electrical fire. Debated whether this disclaimer was even necessary, but you never know.

Only had seven members at December meeting. That is understandable under the current conditions with Covid. We will have our next woodworkers meeting on Jan. 12 at 6:30. The Governor Reynolds as I write this is allowing us to have 36 people at meeting. If you feel safe just come. I am not sure of program yet; we are working on it. Bring your projects and or send pictures to Dave Turner or Jim Wikle for

This is picture of my new circular saw blade sharpener. Hard to see but I was checking to see if it would sharpen my small 3 1/4-inch blades that I use on my micro table saw; and It will. I bought this with water drip for cooling sharpening wheel when shaping blades with many teeth. I can sharpen dry with blades with fewer teeth. I plan to do a presentation on sharpening with this machine at a later date. Don't throw away your circular blades. I can sharpen them for you.

I hope everyone enjoyed the holidays and hope to see us all together again one day.
